

Dear Parents/Guardians,

The Cripple Creek-Victor School District has purchased Securly, a Chromebook monitoring and management service.

Securly Classroom

Securly Classroom is a tool which allows teachers to guide, monitor and communicate with Students during class. You may have noticed a notification on your student's Chromebook during remote learning days. This service is a tool that may be used by teachers during school hours (7:40 AM - 4:05 PM) Monday through Thursday.

- When a teacher activates a class session in Securly, students will see a notification on the lower-right corner of their screen alerting them that their Chromebook screen can be seen by the classroom teacher.
- A Securly extension icon will also change from grey to color during active sessions.
- You may find that teachers use Securly to push out links, send announcements, or close tabs that do not pertain to classroom instruction and assignments.
- It is not possible for teachers to activate the Chromebook camera or microphone or use this service for unobserved surveillance.

If you have any questions or concerns about how Securly will be used in the classroom with your child, please feel free to contact Merrill Ballinger, Technology Director, merrill.ballinger@ccvschools.com.

Parent Console

Once the school day has ended parents may wish to utilize Securly at home, benefitting from features that will help you control Chromebook usage during non-school hours. These benefits include:

- Checking online activity
- Customizing rules
- Pausing internet access
- Opt-in for notifications
- Get weekly reports
- Filtering rules

Securly offers you the opportunity to monitor your child's internet activity right from your phone.

In the SecurlyHome app, you'll have a real-time view of your child's activity on their school device. You'll also get a weekly email from Securly with a snapshot report of that activity.

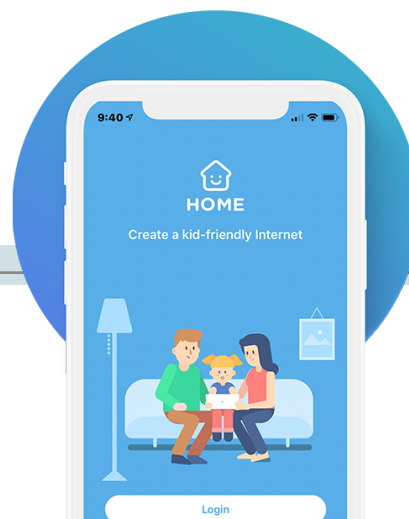

To Get Started:

[Fill out the Google Form with your information](#)

1

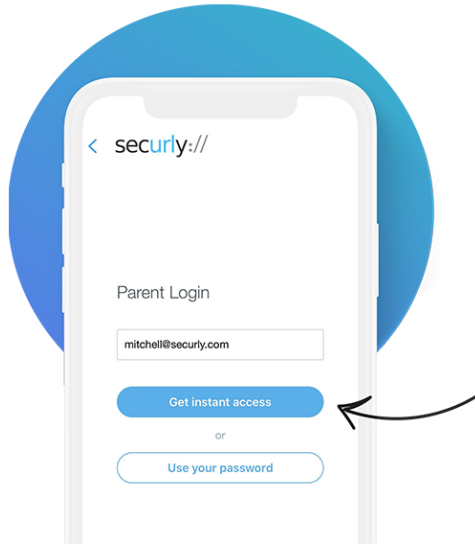

Download the
SecurlyHome App

Access to your child's real-time activity feed, right in the palm of your hand.

2

Open the app and tap
The Login button

Enter the email address you have registered
With your child's school and tap the "Get instant
Access" button.

Check your email from your phone, click on the link,
And hooray! Your account is ready to go.

3

Stay in the know.

Open the "Activity Feed" tile in
Your app to see what your child
Is up to online.

Please allow 24-48 hours before
The service is active.
